

LUXURY OF FREEDOM

HOMEMADE ICE CREAM TASTES

13. 12. 2017

Every BIG BERRY guest will have the chance to enjoy a delicious berry ice-cream which will be delivered immediately to their houses by the Kolpa River.

The inspiration for this new and yummy business was found after years of work in the field and the will of bringing to Slovenia a high-quality product that could satisfy the client's taste.

Local home-made ice cream 100% natural is what [Tik Tak Cafe](#) started making this year (2017) in Črnomelj, Bela krajina, by the initiative of its owner Zdenka Stipanovic, a sales manager that has been working for the past years selling ice cream machines and raw material for ice cream producers. Actually, the owner is more than happy to experiment with peculiar flavours that amaze the ones brave enough to try them, some of them being garlic or lavender.

Tik Tak has already created more than 70 types of ice cream, both with water and milk, in the Rokmar machines, which has the capacity of producing ice-cream in around 15 minutes and has the advantage of having four quality certificates, being those GMO free, Halal, AHCCP, Brez Alergnov.
